## 1 FST Food Science and Technology

Department of Agraria  
[www.dipartimentodiagraria.unina.it](http://www.dipartimentodiagraria.unina.it)

The professional profile to be formed implies knowledge of the processes and technologies required for food preparation and preservation. Graduates may find employment opportunities in industry and other sectors related to development of food products, management and quality control.

## 2 DBE Design for the Built Environment

Department of Architecture DIARC  
[www.diarc.unina.it](http://www.diarc.unina.it)

The degree program offers a training program that leads students to the achievement of the Master of Science in Design for the Built Environment. The master degree aims to train a designer in emerging fields that express demand for advanced design skills according to sustainability.

## 3 LMEF Economics and Finance

Department of Economics and Statistics  
<http://dises.dip.unina.it>

LMEF is an advanced two-year course that allows students to complete their graduate training in economics and finance. LMEF prepares students for a professional career in banking, consulting, insurance and financial services, international and public institutions, and research institutes.

## 4 MARE Biology and Ecology of Marine Environment and Sustainable Use of Marine Resources

Department of Biology  
[www.mare.unina.it](http://www.mare.unina.it)

The Master's Degree is to train highly specialized marine biologists capable of planning and executing marine ecosystem management and conservation strategies.

## 5 SGE Structural and Geotechnical Engineering

Department of Structures for Engineering and Architecture  
[www.dist.unina.it](http://www.dist.unina.it)

The course is to form experts in structural and geotechnical engineering, with a special attention to earthquake engineering, new structural materials, retrofit and upgrading of existing constructions, innovative system of structural response control, new monitoring and diagnostic technologies, advanced technologies for foundation and excavation engineering, seismic geotechnical engineering and wind engineering.

# Education

141 Courses

13 Teaching areas

- ▶ Agriculture
- ▶ Architecture
- ▶ Economics
- ▶ Pharmacy
- ▶ Law
- ▶ Engineer
- ▶ Medicine and Surgery
- ▶ Veterinary Medicine
- ▶ Biotechnological Sciences
- ▶ Mathematics, Physics and Natural Sciences
- ▶ Political Sciences
- ▶ Sociology
- ▶ Humanities

## CAMPUSES

The University of Naples Federico II has various campuses both in the city and in the immediate surroundings. The Senate House and the central administrative building is located in central Naples, in the historical buildings at the intersection between via Mezzocannone and corso Umberto I.

The Department of Agricultural Science is found in Portici, a town very close to Naples. The Department of Medicine and the university hospital occupy a large campus on the Camaldoli Hills. In the northwestern part of the city is the modern campus of Monte Sant'Angelo which houses the Department of Science and the Departments of Economics.

# DEPARTMENTS

- Department of Agriculture  
<http://agraria.dip.unina.it/>
- Department of Architecture  
[www.diarc.unina.it](http://www.diarc.unina.it)
- Department of Advanced Biomedical Sciences  
<http://scienzebiomedicheavanzate.dip.unina.it/>
- Department of Biology  
<http://biologia.dip.unina.it/>
- Department of Civil, Building and Environmental Engineering  
<http://dicea.dip.unina.it/v>
- Department of Chemical, Materials and Production Engineering  
[www.dicmapi.unina.it](http://www.dicmapi.unina.it)
- Department of Chemical Sciences  
<http://scienzechimiche.dip.unina.it/>
- Department of Clinical Medicine and Surgery  
<http://dmcc.dip.unina.it/>
- Department of Earth, Environment and Resources Sciences  
[www.distar.unina.it](http://www.distar.unina.it)
- Department of Economics, Management and Institutions  
[http://economia\\_management\\_istituzioni.dip.unina.it/](http://economia_management_istituzioni.dip.unina.it/)
- Department of Economics and Statistics  
<http://dises.dip.unina.it>
- Department of Electrical and Information Technology Engineering  
[www.dieti.unina.it](http://www.dieti.unina.it)
- Department of Humanities  
<http://studiumanistici.dip.unina.it/>
- Department of Industrial Engineering  
[www.dii.unina.it](http://www.dii.unina.it)
- Department of Law  
[www.giurisprudenza.unina.it](http://www.giurisprudenza.unina.it)
- Department of Mathematics and Application  
[www.dma.unina.it](http://www.dma.unina.it)
- Department of Molecular Medicine and Medical Biotechnologies  
<http://dmmbm.dip.unina.it/>

- Department of Neuroscience, Reproductive Sciences and Dentistry  
<http://neuroscienze.dip.unina.it/>
- Department of Pharmacy  
<http://farmacia.dip.unina.it/>
- Department of Physics  
[www.fisica.unina.it](http://www.fisica.unina.it)
- Department of Public Health  
<http://sanitapubblica.dip.unina.it/>
- Department of Political Sciences  
<http://scienzepolitiche.dip.unina.it/>
- Department of Social Sciences  
[www.scienze sociali.unina.it](http://www.scienze sociali.unina.it)
- Department of Structures for Engineering and Architecture  
[www.dist.unina.it](http://www.dist.unina.it)
- Department of Translational Medicine  
[www.medicinatrslazionale.unina.it](http://www.medicinatrslazionale.unina.it)
- Department of Veterinary Medicine and Animal Production  
[www.mvpa.unina.it](http://www.mvpa.unina.it)

26 Departments 4 Schools

- School of Agriculture and Veterinary Medicine
- Polytechnic and Basic Sciences School
- School of Human and Social Science
- School of Human and Social Science

## University of Naples FEDERICO II

was established in 1224 through an Imperial Charter by Federico II Hohenstaufen, the King of Sicily and Holy Roman Emperor. It was the first publicly funded university in Europe. Nowadays the university offers courses in practically every existing v-academic discipline, which lead to one hundred and fifty-five graduate level degrees. Research facilities provide support for all these courses. Students have the chance not only to pursue intellectual development but also the possibility to acquire professional skills. The University is divided into four Schools, which act as semi-independent bodies as regards the teaching and research management for twenty six departments grouped, within each division, according to academic and research profiles.

Dear Friend,

On behalf of the entire community of the University of Naples Federico II, one of the oldest and largest universities in the world, I am pleased to welcome you. We are making every effort to combine teaching and research excellence with the warm and friendly atmosphere of the Neapolitan character.

We are convinced that achieving such integration makes the university a much nicer place to learn and work. Proud of the nearly eight century history of our Institution, we are striving to keep pace with the ever-faster changes of the modern world as we look to the future. We accept the challenge of training competent, open-minded professionals, aware of the rapidly changing needs of a collective human society, for we are all but convinced that knowledge is the most rewarding achievement for mankind. In allegiance to these

principles, we are pursuing excellence, making every effort to improve our academic and research standards. We are tirelessly reassessing our current standings pushing changes through, whenever needed.

It isn't easy! But, we feel that the greater the challenge, the greater the reward. We work hard to create a vibrant intellectual environment as the appropriate milieu for world class research and training. This, combined with the many attractions of our very special city, will make the time spent in Naples and at our university a most rewarding one.

We hope to have the privilege of assisting you and helping you to enjoy what we can offer.

**Gaetano Manfredi**  
Rector  
University of Naples  
Federico II
