

INFORMATION ON CONTAINING THE SPREAD OF SARS-CoV-2 VIRUS

MEASURES ADOPTED AND CONDUCT OBLIGATIONS FOR STUDENTS TAKING PART IN EDUCATION AND TRAINING ACTIVITIES IN PRESENCE

In compliance with the DPCM 7/09/2020, as well as the “Shared protocol for regulating the measures for contrast and containment of the spread of the Covid-19 virus in the workplace” of 24/04/2020 and in line with the risk assessment and management processes governed by Legislative Decree 81/08 and subsequent amendments, this information is intended to provide general and specific measures taken within the University to contain the epidemic.

Exposure to SARS-CoV-2 represents a generic biological risk and, therefore, in non-health care workplace, the precautionary measures provided by the legislator and the health authority can be adopted.

In particular, we inform you that:

1. It is mandatory to refrain from activities in presence:

- if you have respiratory or flu-like symptoms or fever above 37.5 ° C;
- if you have come into contact in the last 14 days with subjects declared positive for SARS-CoV-2;
- if you are in quarantine or fiduciary home isolation;
- if you are positive for the SARS-CoV-2 virus and you do not have a medical confirmation of complete recovery;

2. Access is not allowed without wearing a mask (at least surgical or semi-filtering mask without exhalation valve). Students must wear the mask correctly throughout the duration of lessons, except in cases where a distance of at least 2 meters from the others is guaranteed.

These devices will be removed for a short time at the time of interventions from the site. For the subjects with disabilities not compatible with the continuous use of the mask, appropriate support will be activated by the competent offices;

3. It is necessary to use the disinfectant solution or to wash hands before access the classrooms;

4. It is mandatory to promptly report the occurrence of any flu symptoms (e.g. fever and symptoms of respiratory infection) to the professor, taking care to remain at an adequate distance from people present;

5. It is mandatory to respect the sanitary measures indicated by the Ministry of Health and in particular to wash hands frequently with soap and water. Where this is not possible it is recommended the use of antiseptic preparations for the hands placed in special dispensers near the common areas;

6. Students are required to comply with all anti-contagion security measures (anti-gathering, interpersonal distancing, correct use of the mask) and indications requested by the staff;

7. It is forbidden to use common hangers and to exchange objects among students;

8. It is compulsory to respect the distancing measures while on the move, when in waiting areas and during educational activities (also following the indications given on the vertical and horizontal signs). For internal movements (both in the corridors and using the stairs), in particular, everybody must keep the right and respect rules for the use of common areas;

9. All environments will be constantly sanitized, with particular attention to disinfection of elements for collective use (toilets, push-button panels, handrails, etc.).
